YOUR GUIDE TO BORROWING MONEY FOR GRADUATE SCHOOL

Federal Stafford Loans

If you demonstrate sufficient financial need, you can qualify for a Subsidized Federal Stafford Loan – which means the federal government will pay the interest that accrues while you are in school, during a six-month, post-school grace period or in any authorized period of deferment. If you fail to show sufficient need, you can still qualify for an Unsubsidized Federal Stafford Loan. With an unsubsidized loan, you will be responsible for paying the interest that accrues during school, grace and deferment periods. If you choose not to make interest payments while in school, the interest will be “capitalized,” which means that the lender will add the accrued interest to the principal balance of the loan. Future payments will be based on both the principal (original amount borrowed) plus any capitalized interest.

This information will help you understand and complete the forms necessary to borrow from the Subsidized and Unsubsidized Federal Stafford Loan Program.

The Stafford Master Promissory Note (MPN)

- The MPN is a legal document. By signing it, you must promise to repay your Stafford Loans.
- Students who use an MPN are notified each academic year of their loan eligibility by the school.
- You may choose to reduce or cancel your loan amount once you are notified.
- Be conservative – borrow only what you need.

Applying for a Stafford Loan

- You should complete and sign your MPN online.
- You must complete entrance and exit counseling as determined by your school's Financial Aid Office.

Disbursement of Funds

- Funds are disbursed directly to school.

Eligibility and Borrowing Limits

- Your school determines your eligibility by conducting a needs analysis based on the information you provided on your Free Application for Federal Student Aid (FAFSA).
- The FAFSA is used to apply for federal student financial aid, including grants and loans.
- Completing the FAFSA is the first step in the financial aid process. You should submit your application as soon as possible after January 1.
- Completing the FAFSA on the Web at www.fafsa.ed.gov is the fastest way to apply for financial aid.

- Pepperdine University's Federal School Code is 001264.
- You must be an undergraduate, graduate or professional student, a U.S. citizen or eligible non-citizen, enrolled at least half-time with no unresolved defaults or overpayments owed on Title IV educational loans or grants.
- Your Award Notification Letter will provide you with eligibility details and the maximum amount you can borrow.

Interest Rates and Fees

- For loans disbursed before 7/1/06, the rate is variable and adjusted annually on July 1. The interest rate cap is 8.25%.
- For loans first disbursed on or after July 1, 2006 the interest rate is fixed at 6.80%.
- Loan fees may be deducted at the time of disbursement and may consist of an origination fee up to 3.00% and a guarantee fee of up to 1.00%, depending on the lender that you choose.

Repayment

- Stafford Loan repayment begins six months after you graduate or leave school.
- The loan repayment term is up to 10 years. You can pre-pay the loan in whole or part without penalty.

Choosing a Lender

- Students who have previously borrowed a Federal Stafford Loan are encouraged to use the same lender.
- We recommend you choose one of the lenders on our preferred lender list. (See comparison chart.)

*The Zero Payments for the Last Six Months offer is valid for Stafford Loans serviced by Citibank with first disbursements on or after July 1, 2006. The borrower's minimum aggregate balance of Stafford and PLUS Loans at repayment must be \$4,500. Citibank will waive only the amounts due on the final 6 regularly scheduled payments based on the original repayment period (e.g. payments numbered 115 through 120 on a 10-year repayment period). Prepayments on a loan may affect the amount of the benefit. For example, prepayments may eliminate one or more of the regularly scheduled payments and thus reduce the number of monthly payments which Citibank would waive. The Zero Origination Fee Stafford Loan is valid for Stafford Loans serviced by Citibank. Citibank will pay the origination fee that is typically charged to the borrower.

Information printed in this document was gathered from publicly available sources and is believed to be correct as of this printing. It is intended for use as an approximate guide for comparison purposes only. To ensure fully informed borrowing, you should refer directly to each lender's loan application and promissory note for exact information regarding terms, assumptions, conditions, eligibility, definitions and **Annual Percentage Rate (APR)**.

**For CitiAssist Loans, the interest rate charged is based on the applicant's credit rating and the presence of a co-signer. The Prime minus 0.50% rate is available for loan applications received after April 1, 2006. Co-signers may be released from a loan if the borrower has made the first 48 consecutive monthly payments on time, is creditworthy and is a U.S. citizen or permanent resident at the time the release is requested. Interest rate reductions and other benefits terminate upon loan delinquency or default. Borrowers must continue to make monthly payments by the scheduled payment due date to retain the applicable benefit. Borrowers may apply online at any time. The three-minute credit response is for applications submitted Monday to Friday from 7:00 a.m. to 11:00 p.m. E.T. Additional documentation and data verification may be requested for final loan approval. Visit studentloan.com for other terms and conditions that may apply.

Graduate (APR) Example: Each APR example is based on an \$8,000 graduate loan with a 27-month deferral period followed by a 180-month repayment period and assuming a constant Prime Rate of 7.50%. Based on an interest rate of Prime minus 0.50% the APR would be **6.87%** with a \$83.23 monthly payment. Based on an interest rate of Prime + 4.00%, the APR would be **11.14%** with a \$117.64 monthly payment.

Interest rates may vary and are indexed to the Prime Rate as published in *The Wall Street Journal*. As of March 2, 2006, the published Prime Rate was 7.50%. The APR will increase if the Prime Rate increases and would result in higher monthly payments, an increase in the number of scheduled payments, or both.

Interest rate reductions and all borrower benefits including these offers terminate upon loan delinquency or default. We reserve the right to modify or discontinue benefit programs at any time without notice. Any termination or modification of the program will not affect the terms of loans previously made. Additional terms and conditions.
