STUDENT TESTIMONIALS

"The fact is that there is not that many programs throughout the entire country like the Aliento program and that makes it unique but also a rarity as well."

"The Aliento program has laid out a solid foundation in preparing and equipping me to enter the mental health field to address the mental health needs of the Latina/o communities effectively."

"The immense amount of exposure to the many facets that exists within the Latino/a community in regards to mental health really helped me understand my lens and expand my ability to grow as a person and a professional."
