Counties Served

332
Total days

- Los Angeles
- Orange County
- Riverside
- San Bernardino

714
Total hours

*Disclaimer: Due to COVID-19 pandemic, the community service hours have been impacted, compared to years prior.

STUDENT TESTIMONIALS

"I learned that more of the Latino community needs to come together to volunteer and support Los Angeles County. There is not enough support."

"I learned that more resources are needed in this elderly care facility. They are providing the necessities for them but more mental awareness and activities that truly engage them would be beneficial."

"Made friendships and connections as well as experience with a group I did not have prior knowledge about."

"Obtained insight to worker's mental health and how COVID affected worker's mental health in a multitude of ways and developing rapport with individuals from my community."

*Disclaimer: While the world was impacted, our students continued to push through and provide services to our communities. Total hours of telehealth were not captured with the current data.
