

CLINICAL CONNECTIONS

Illuminating Relevant Clinical Issues and Networking with Colleagues

Money Matters & **Psychotherapy** with Deborah C. Bradley, M.A., M.A.C.L.P

This is a great resource for those of us anticipating working in this field. Money is something we have (in most cases) very little education on, unless we've sought it out on our own. Especially if your goal after graduation is, "I'm going to open up a private practice and managing my finances will be so easy!"

A former Vice President and Bank Branch Manager at several major banks for over 15 years, Ms. Deborah Bradley currently serves as Program Director, Community Services Block Grant Program at Project Impact. The program provides tutoring, mentoring, parent education and job placement/ training services in various communities. Additionally, Ms. Bradley provides financial consulting and mental health services to children, families and Non-profit groups in various cities in California.

Ms. Bradley is also founder, Executive Director of The Empowered Life Development Center, a life enrichment center for adults and families.

Ms. Bradley holds a double degree in Finance and Management from Lipscomb University, and several Master Degrees in Organizational Management (University of Phoenix); Psychology (Pepperdine University); and Clinical Psychology, emphasis in Marriage and Family Therapy (Pepperdine University).

Saturday, October 17, 2009
9:30 am to 11:30 am
Pepperdine University – Encino Campus

For more information and to RSVP call Alice Richardson (818) 501-1619

AliceRichardson@Pepperdine.edu or Katie Martin (818) 501-1609

Sponsored by Pepperdine University's Clinical Training and Professional Development Office

Clinical Connections is an exciting, free networking opportunity for Licensed and Pre-Licensed M.F.T.'s and Psy.D.'s from different universities to connect. It will offer a forum to discuss clinical issues with colleagues, learn from other's experiences, and to gain support and insight.

We hope that you join us!
