## Imago Relationship Therapy “It Works.”

IMAGO is a philosophy and system unlike any other in its ability to heal places of struggle in our relationships. Based on Imago Relationship Therapy, the workshop gives us the perspective that the “power struggle”, is supposed to happen. In fact, the very qualities that initially attracted you to your partner are the ones that will likely trigger you later on. Imago sees the power struggle as the bridge to healing, not a reason for leaving. This is because nature wants us to become whole, healed people. Therefore, it is going to hook us up with someone who is going to call on us to grow.
