Student Financials

Financial Aid

Financial aid awards are based on an analysis of the student's financial aid eligibility and enrollment status. Students must reapply for financial aid (FAFSA) before the start of each academic year. Students must be enrolled half-time to receive a Federal Stafford Loan and full-time in course work to receive institutional grants or scholarships (enrollment in comprehensive exam and dissertation does not qualify for institutional grants). All financial aid may be adjusted upon review of a student's eligibility and enrollment status at and after the start of the term.

gsep.pepperdine.edu/admission/financial-aid | gsepfaid@pepperdine.edu

Veterans utilizing the Veterans Administration benefits program should consult the Office of Student Information and Services prior to registration. pepperdine.edu/registrar/veterans | 310.506.7999

Student Accounts

Students are responsible for anticipating total tuition and fee charges and should be prepared to make appropriate payment on or before the first day of the term. If financial arrangements are not completed by the last day of the add/drop period, finance charges will be assessed. The Student Accounts Office provides student account information and processes tuition payments, company reimbursement, and student refunds. To review your Pepperdine student account activity, including detailed information about tuition charges, payment due dates, financial aid credited to your account, or refunds processed, log into WaveNet. gsep.pepperdine.edu/student-resources/services/student-accounts

Students may drop classes without tuition penalty during the add/drop period only; however, once students have registered for a term, if all classes are dropped after the initial registration through the last day of add/drop for the term, a charge of \$150 is assessed. Students withdrawing from courses after the add/drop period are subject to the partial refund policy. You may view the refund policy in the 2017–2018 GSEP Academic Catalog. gsep.pepperdine.edu/student-resources/catalog

Institutional Review Board (IRB)

The primary goal of the Graduate and Professional Schools Institutional Review Board (GPS IRB) Office is to protect the rights and welfare of human subjects participating in research activities conducted under the auspices of Pepperdine University.

Research projects conducted by any Pepperdine graduate student including: critical literature reviews, theses, dissertations, and independent research projects, with the intent to contribute to generalizable knowledge must be supervised by a Pepperdine faculty member. Because such directed or independent research projects employ systematic data collection and plan the public dissemination of the research findings, they must also be submitted to the GPS IRB Office for review prior to the commencement of any data collection and/or contact with human subjects. The GPS IRB Office only accepts online applications which can be submitted through the eProtocol IRB system.

community.pepperdine.edu/irb/graduate

Additionally, to meet the needs of the Pepperdine community the GPS IRB Office holds weekly office hours as a resource to researchers who have questions about the IRB process at Pepperdine. Our goal is help provide all applicants seeking our services with outstanding advising and guidance which will then help reduce the number of resubmission cycles. However, the applicant bears sole responsibility for the quality of any submission or resubmission.
